## Healthcare Under Cyber Attack

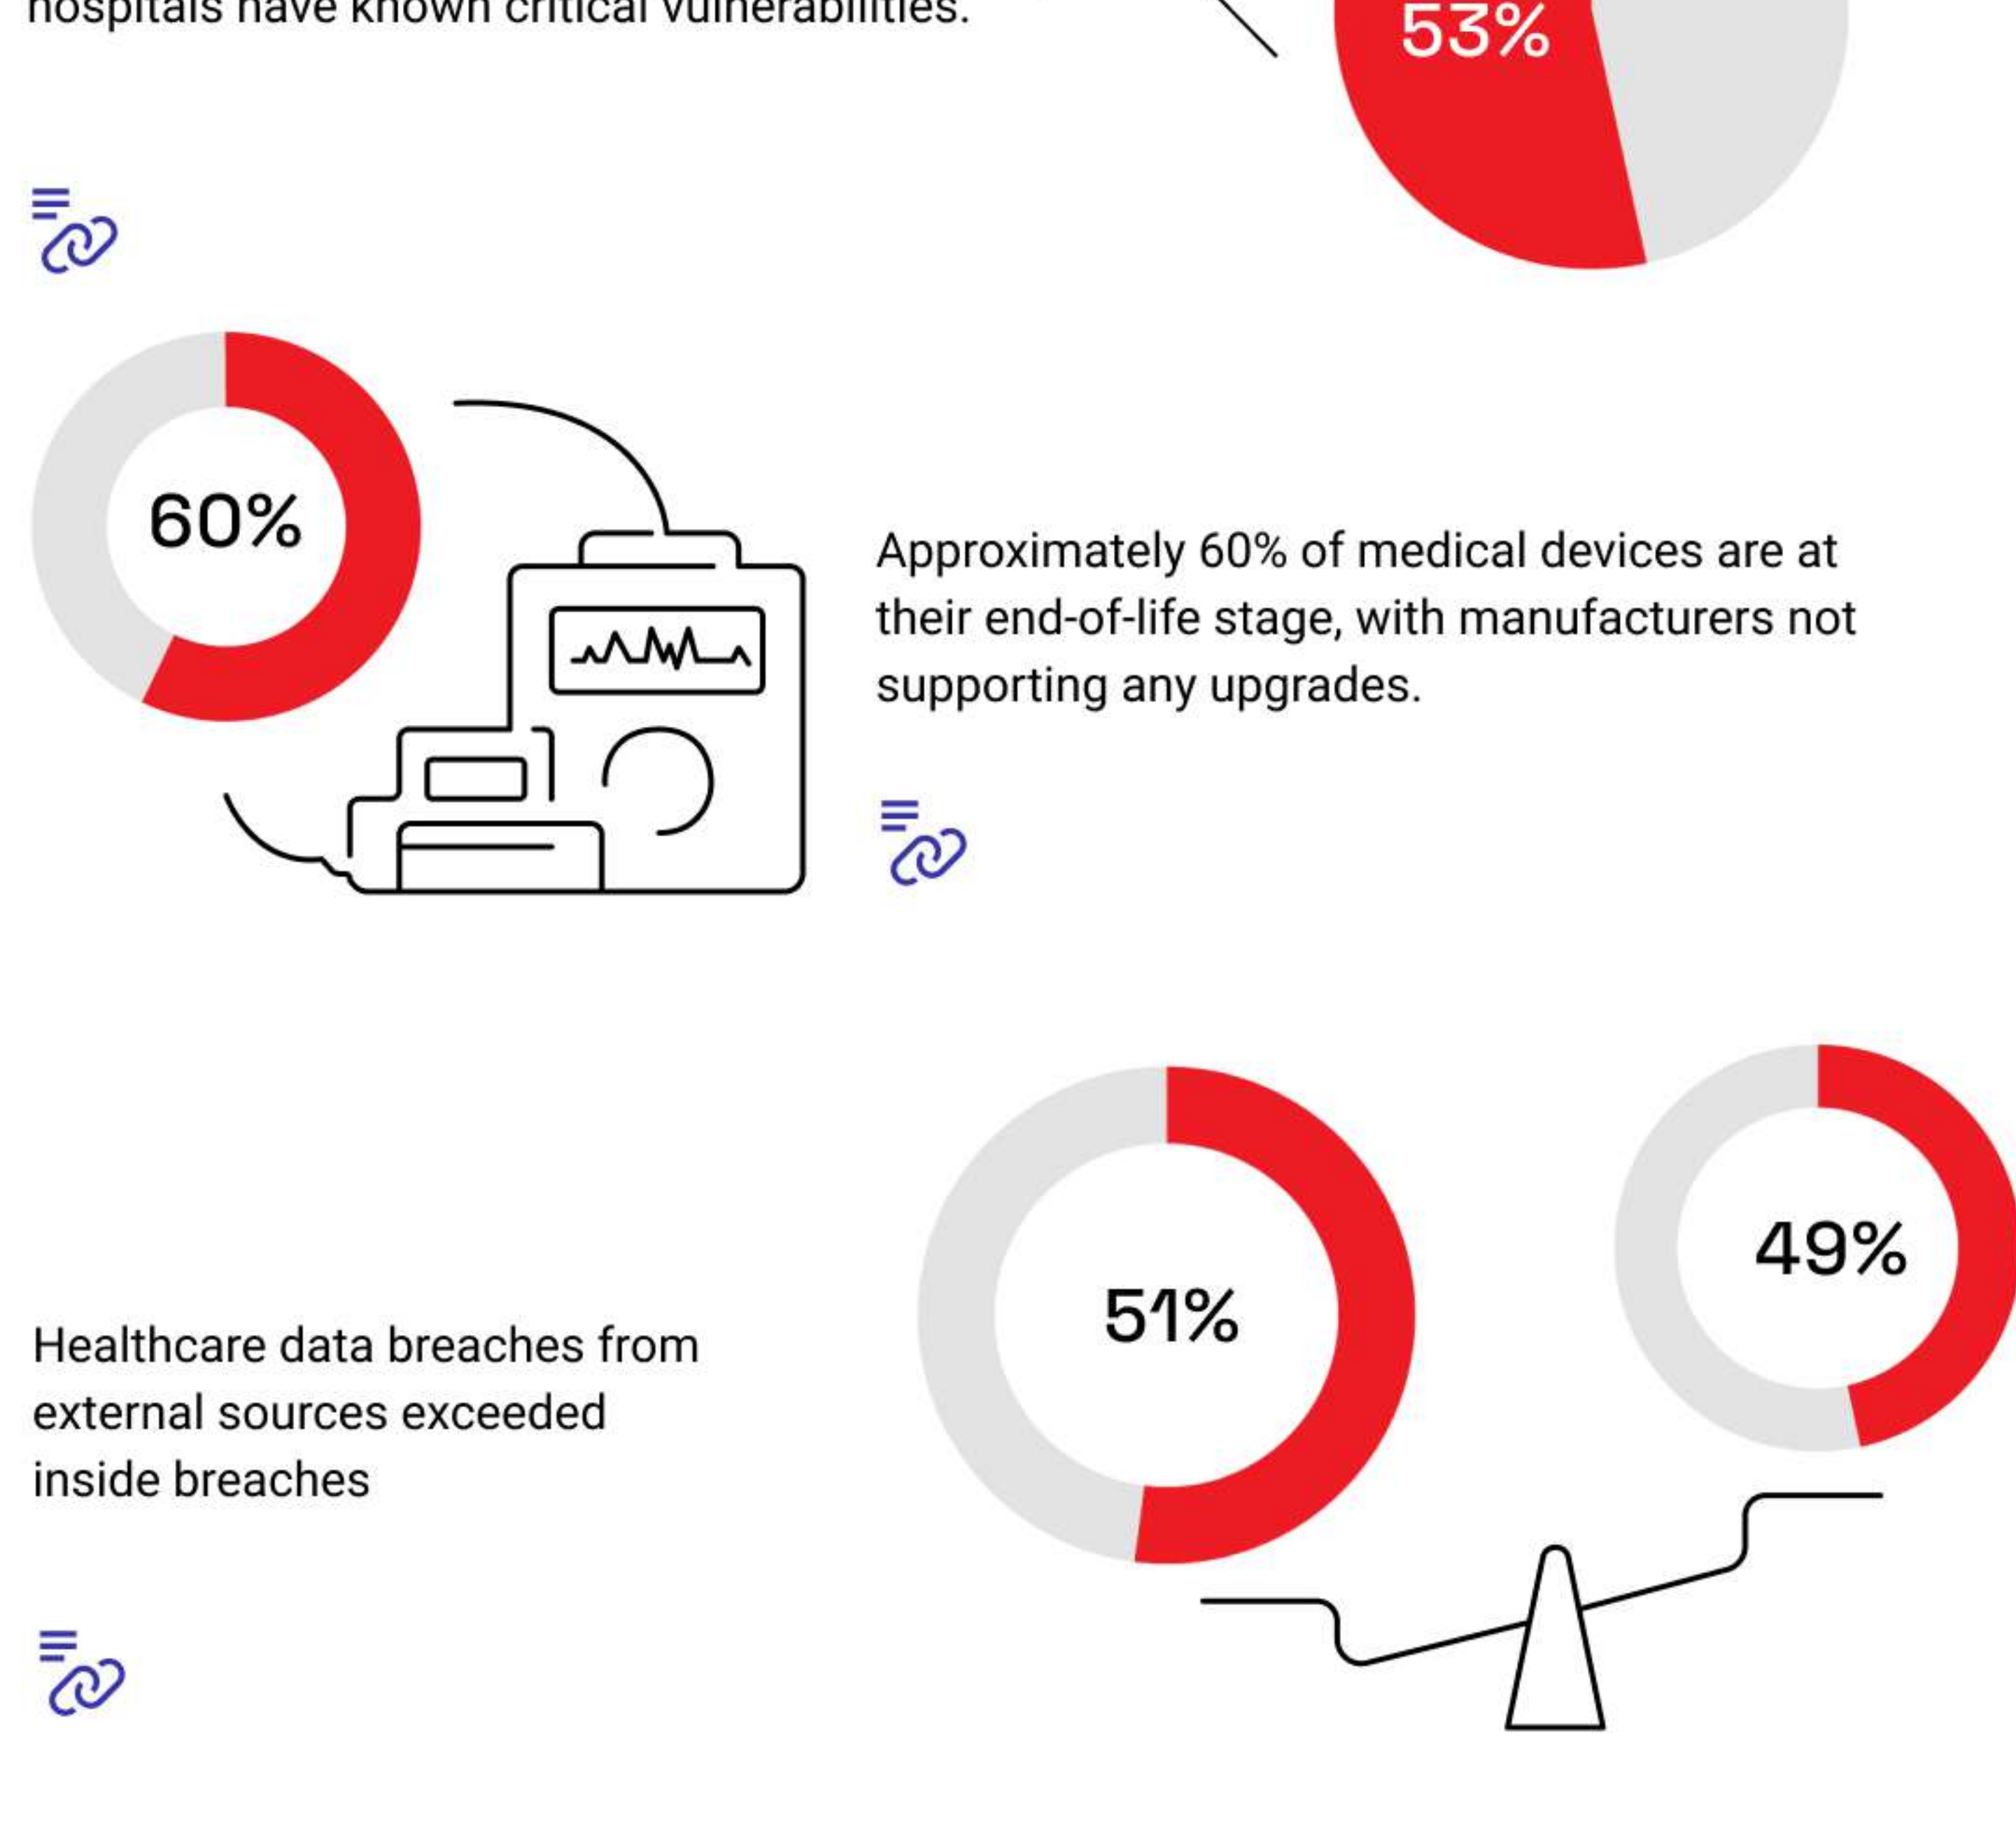

## IoT Devices are Cyber Targets

## Connectivity & Devices Expose Healthcare

## Cyber Threats at a Glance

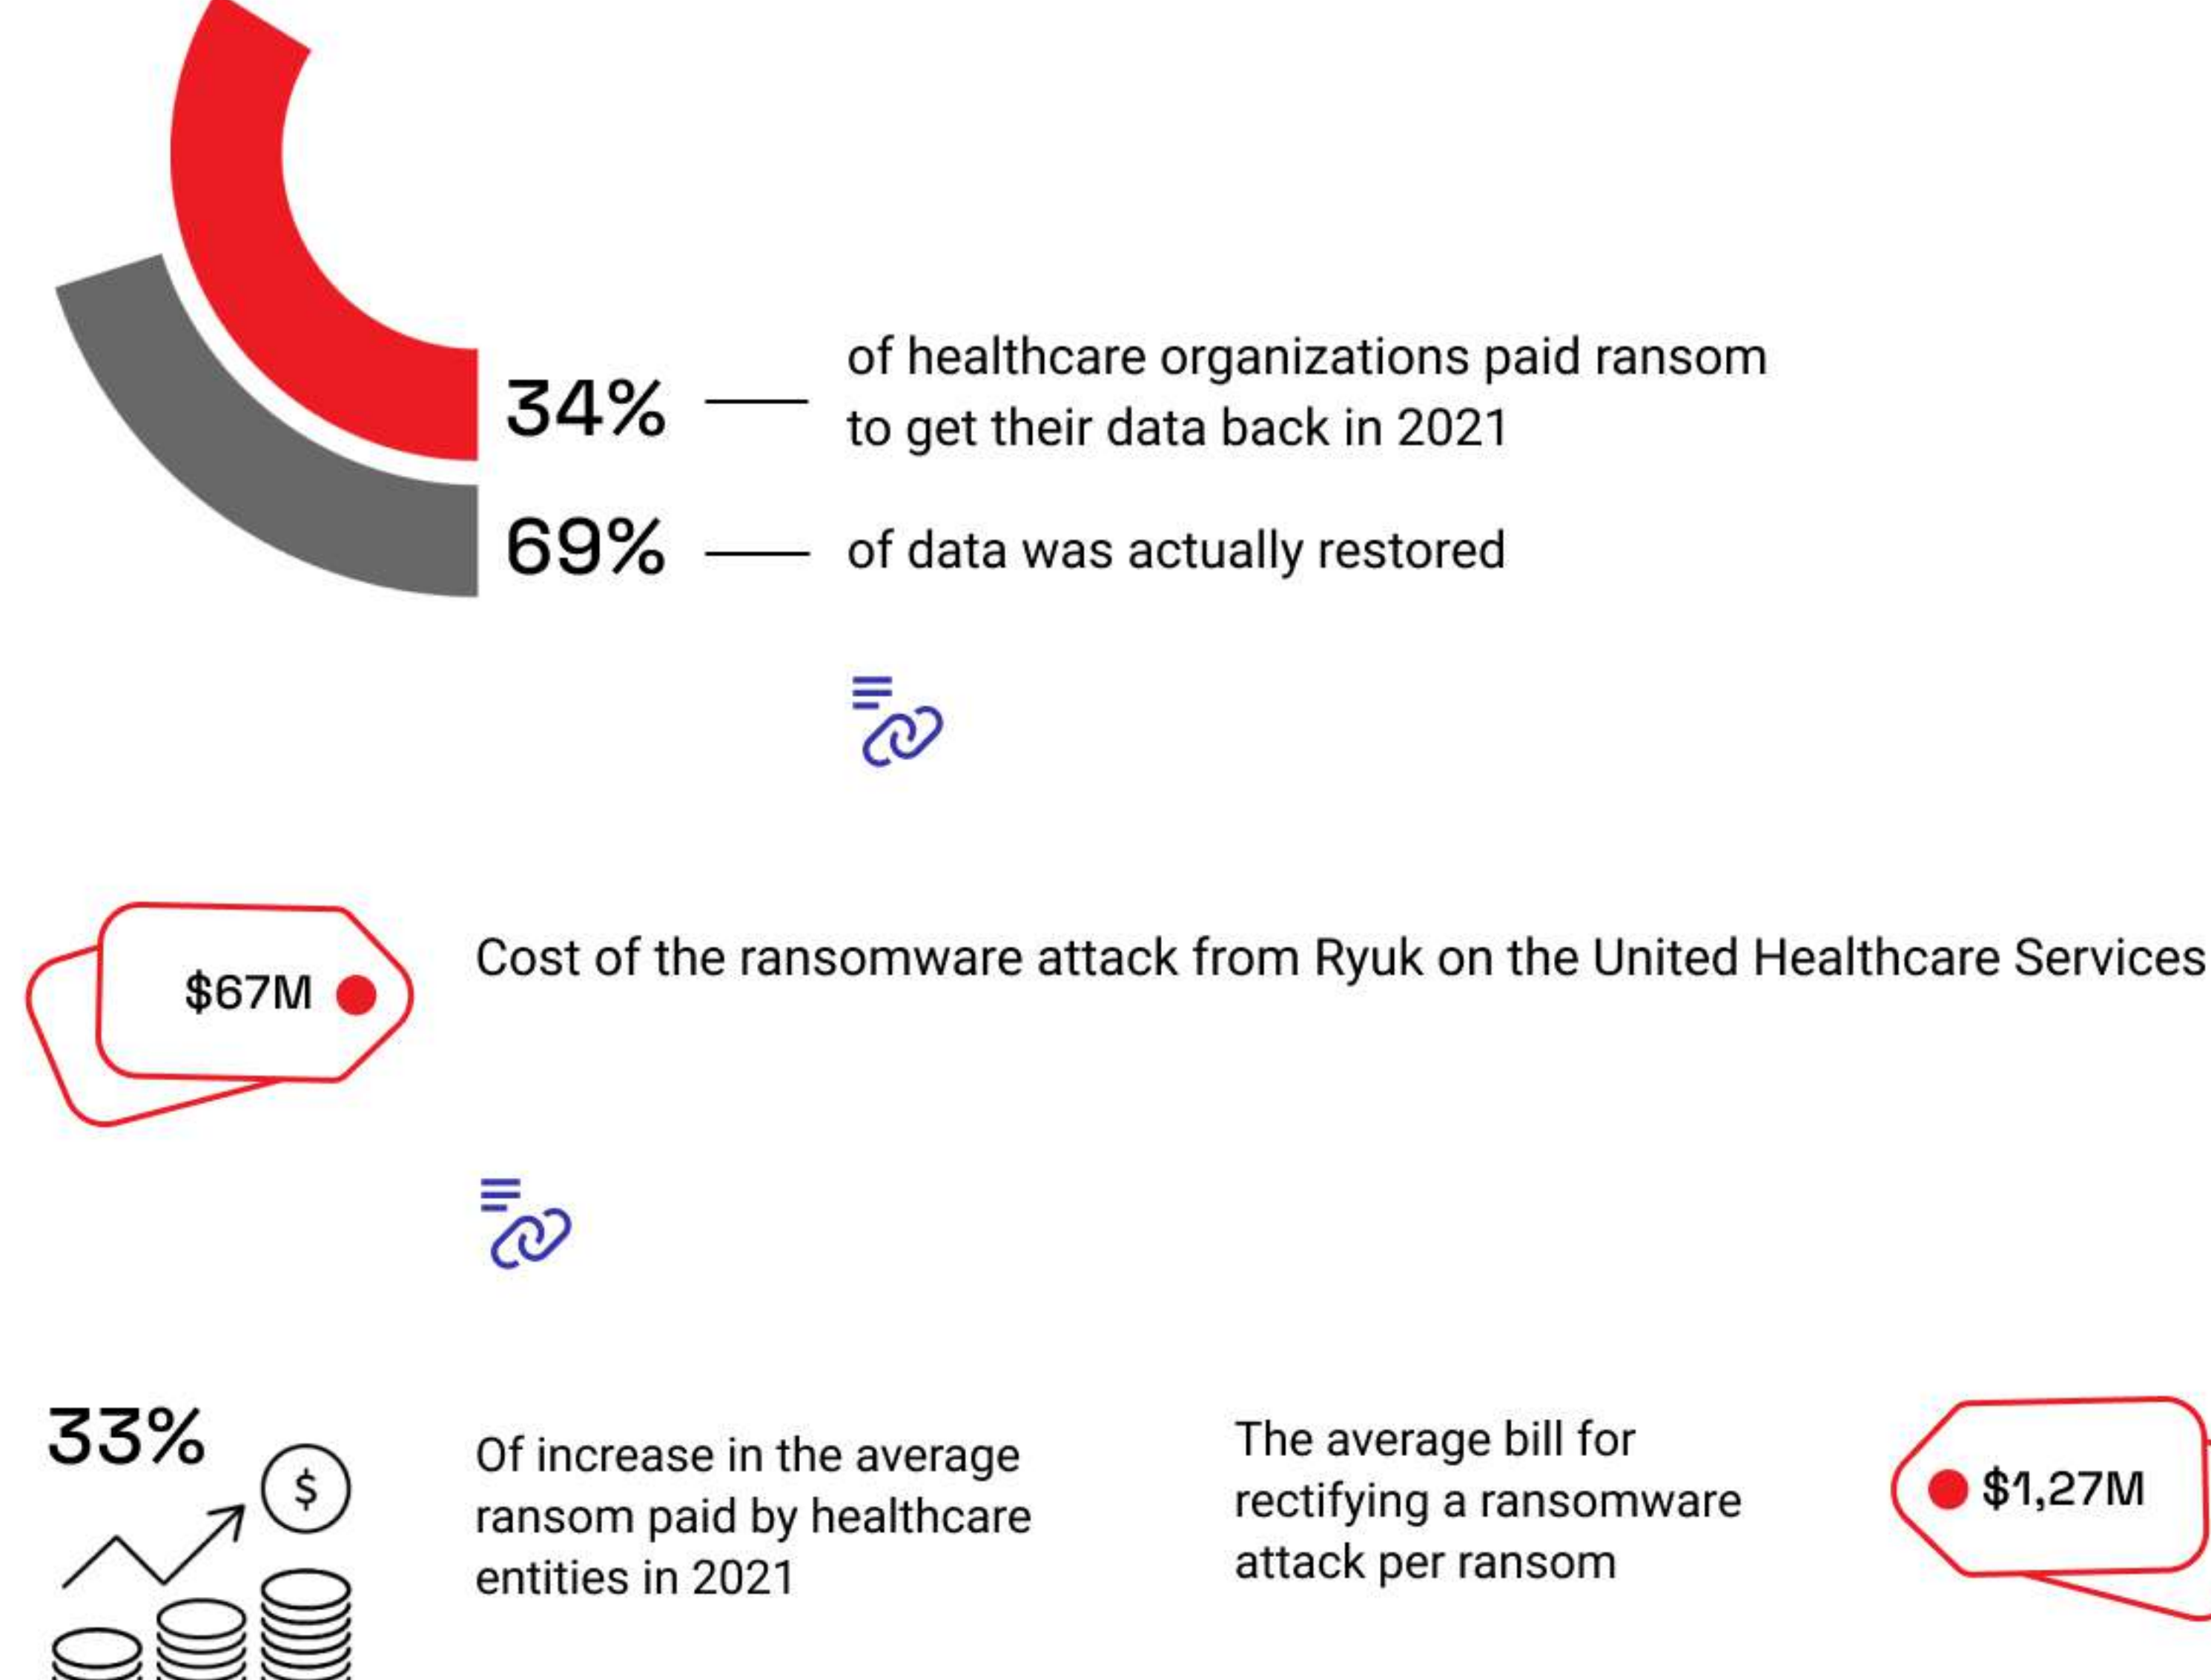

## Top Attack Types:

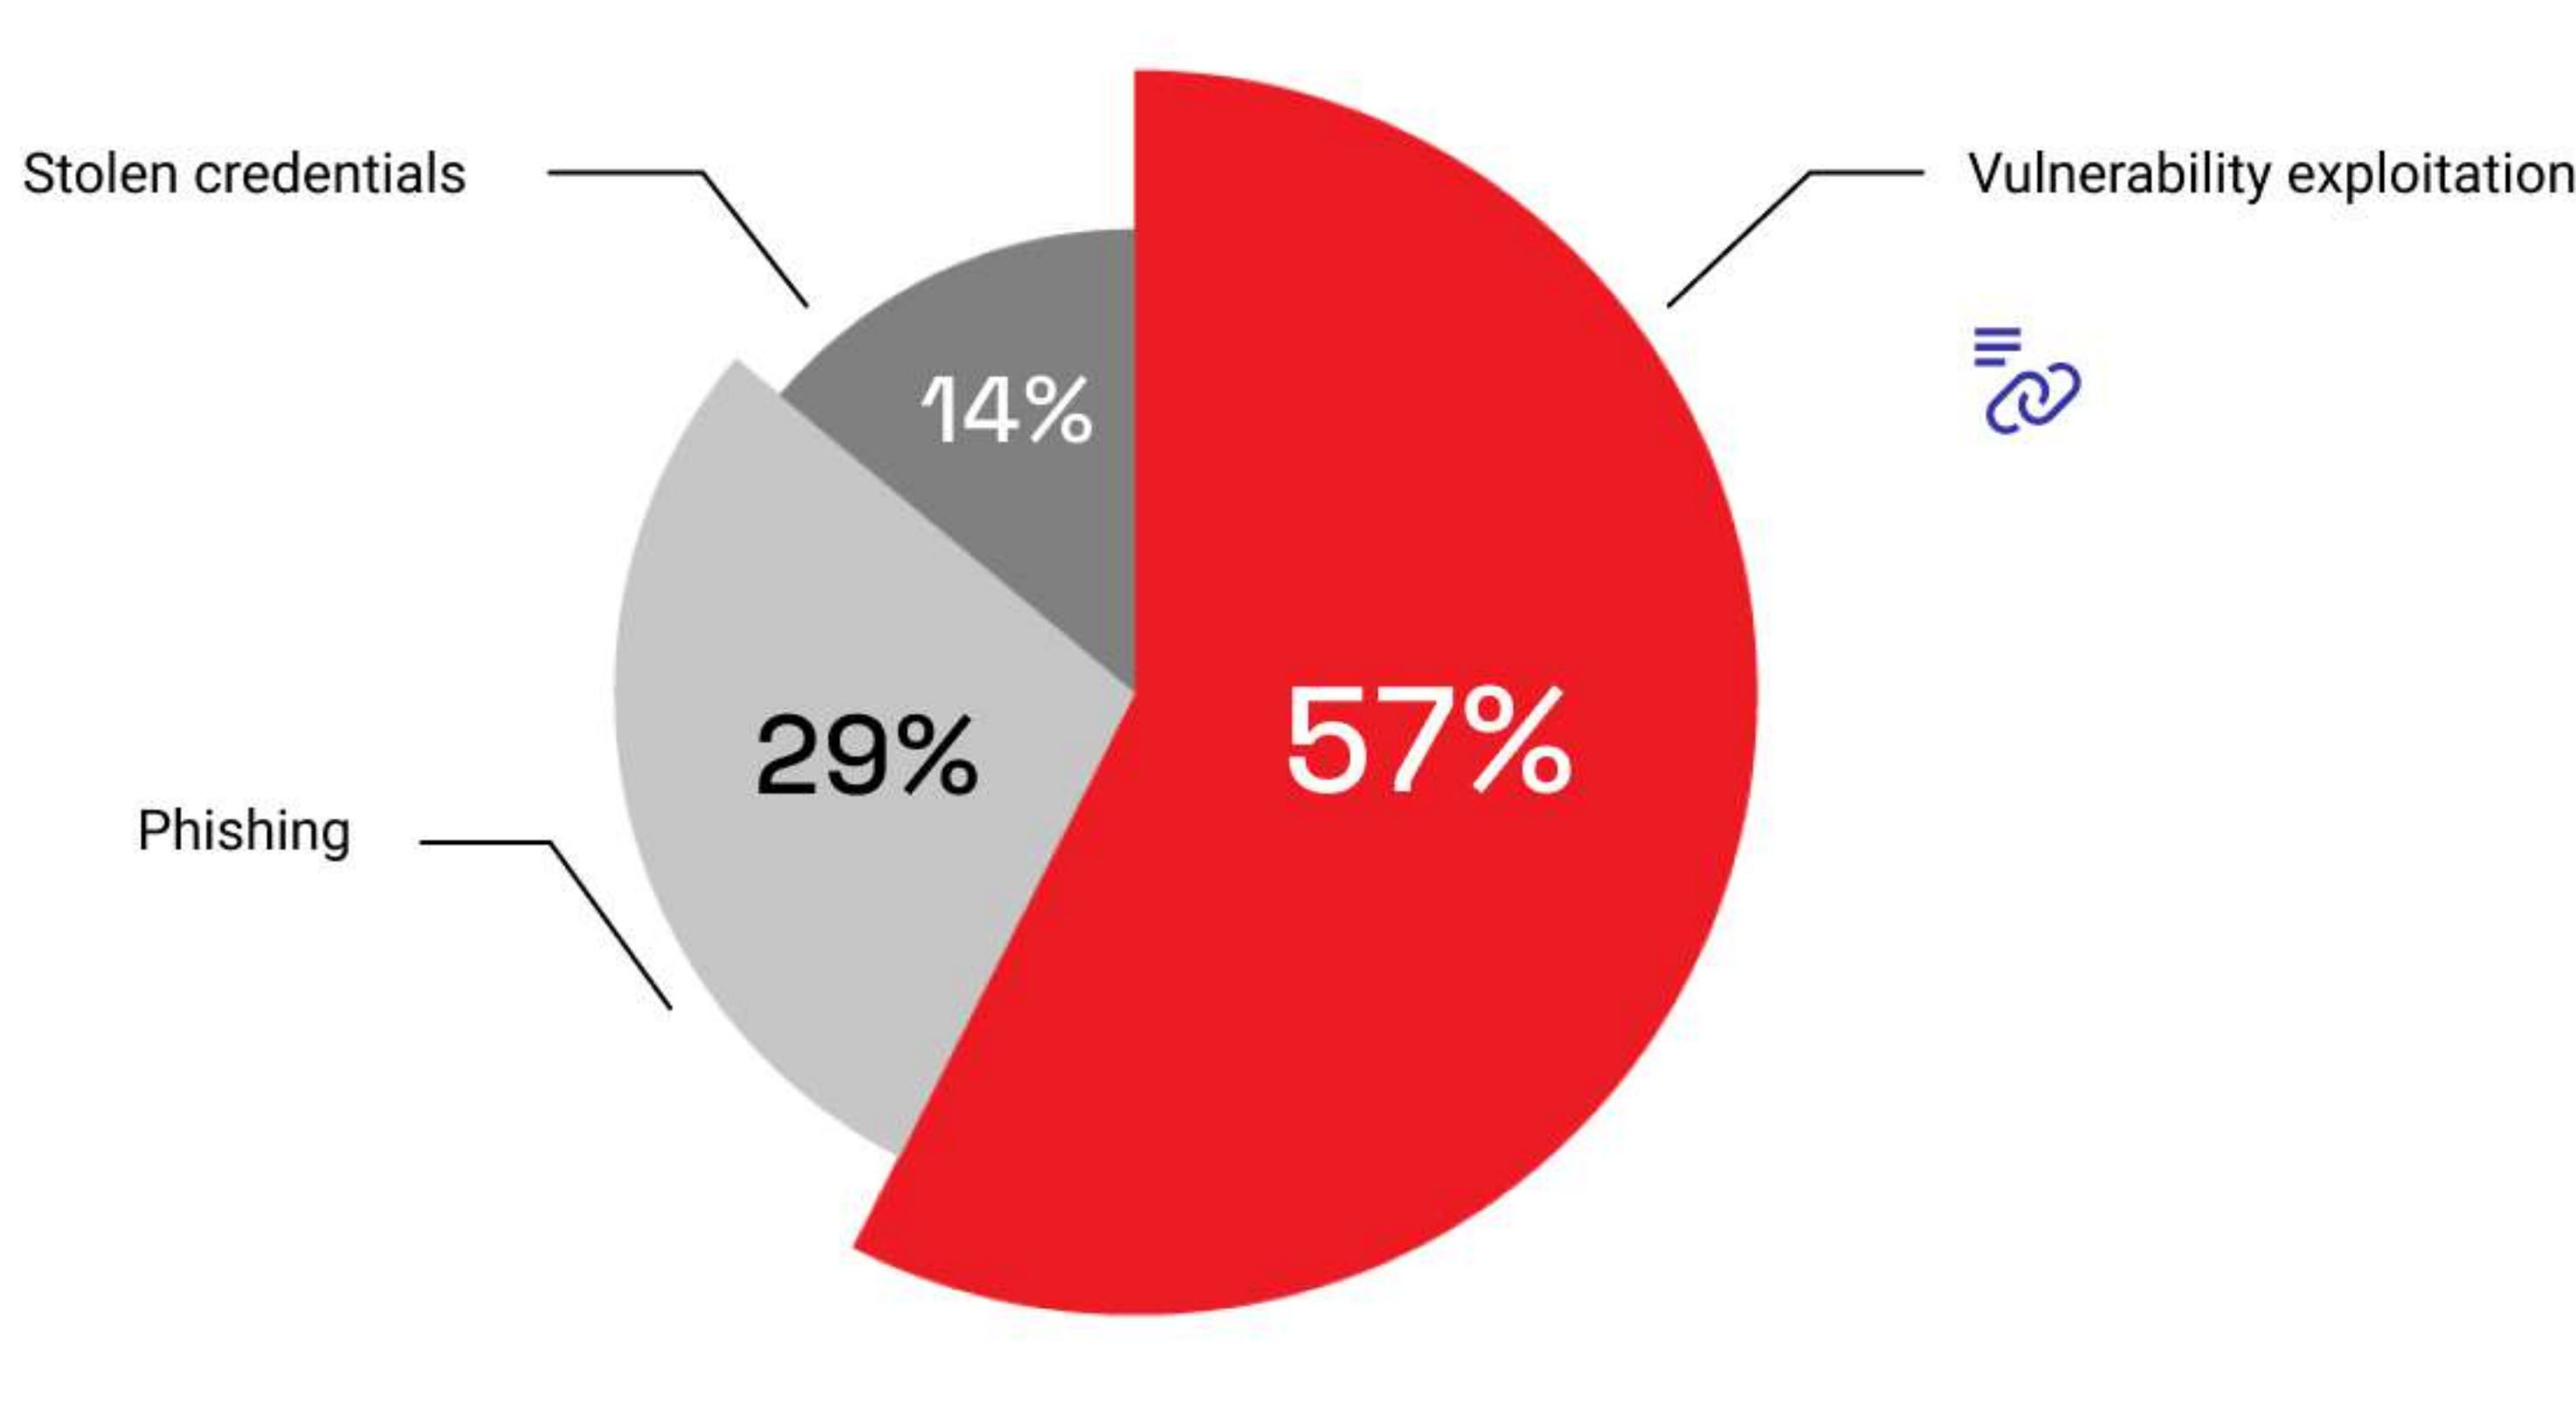

The top concern among healthcare security architects and leaders:

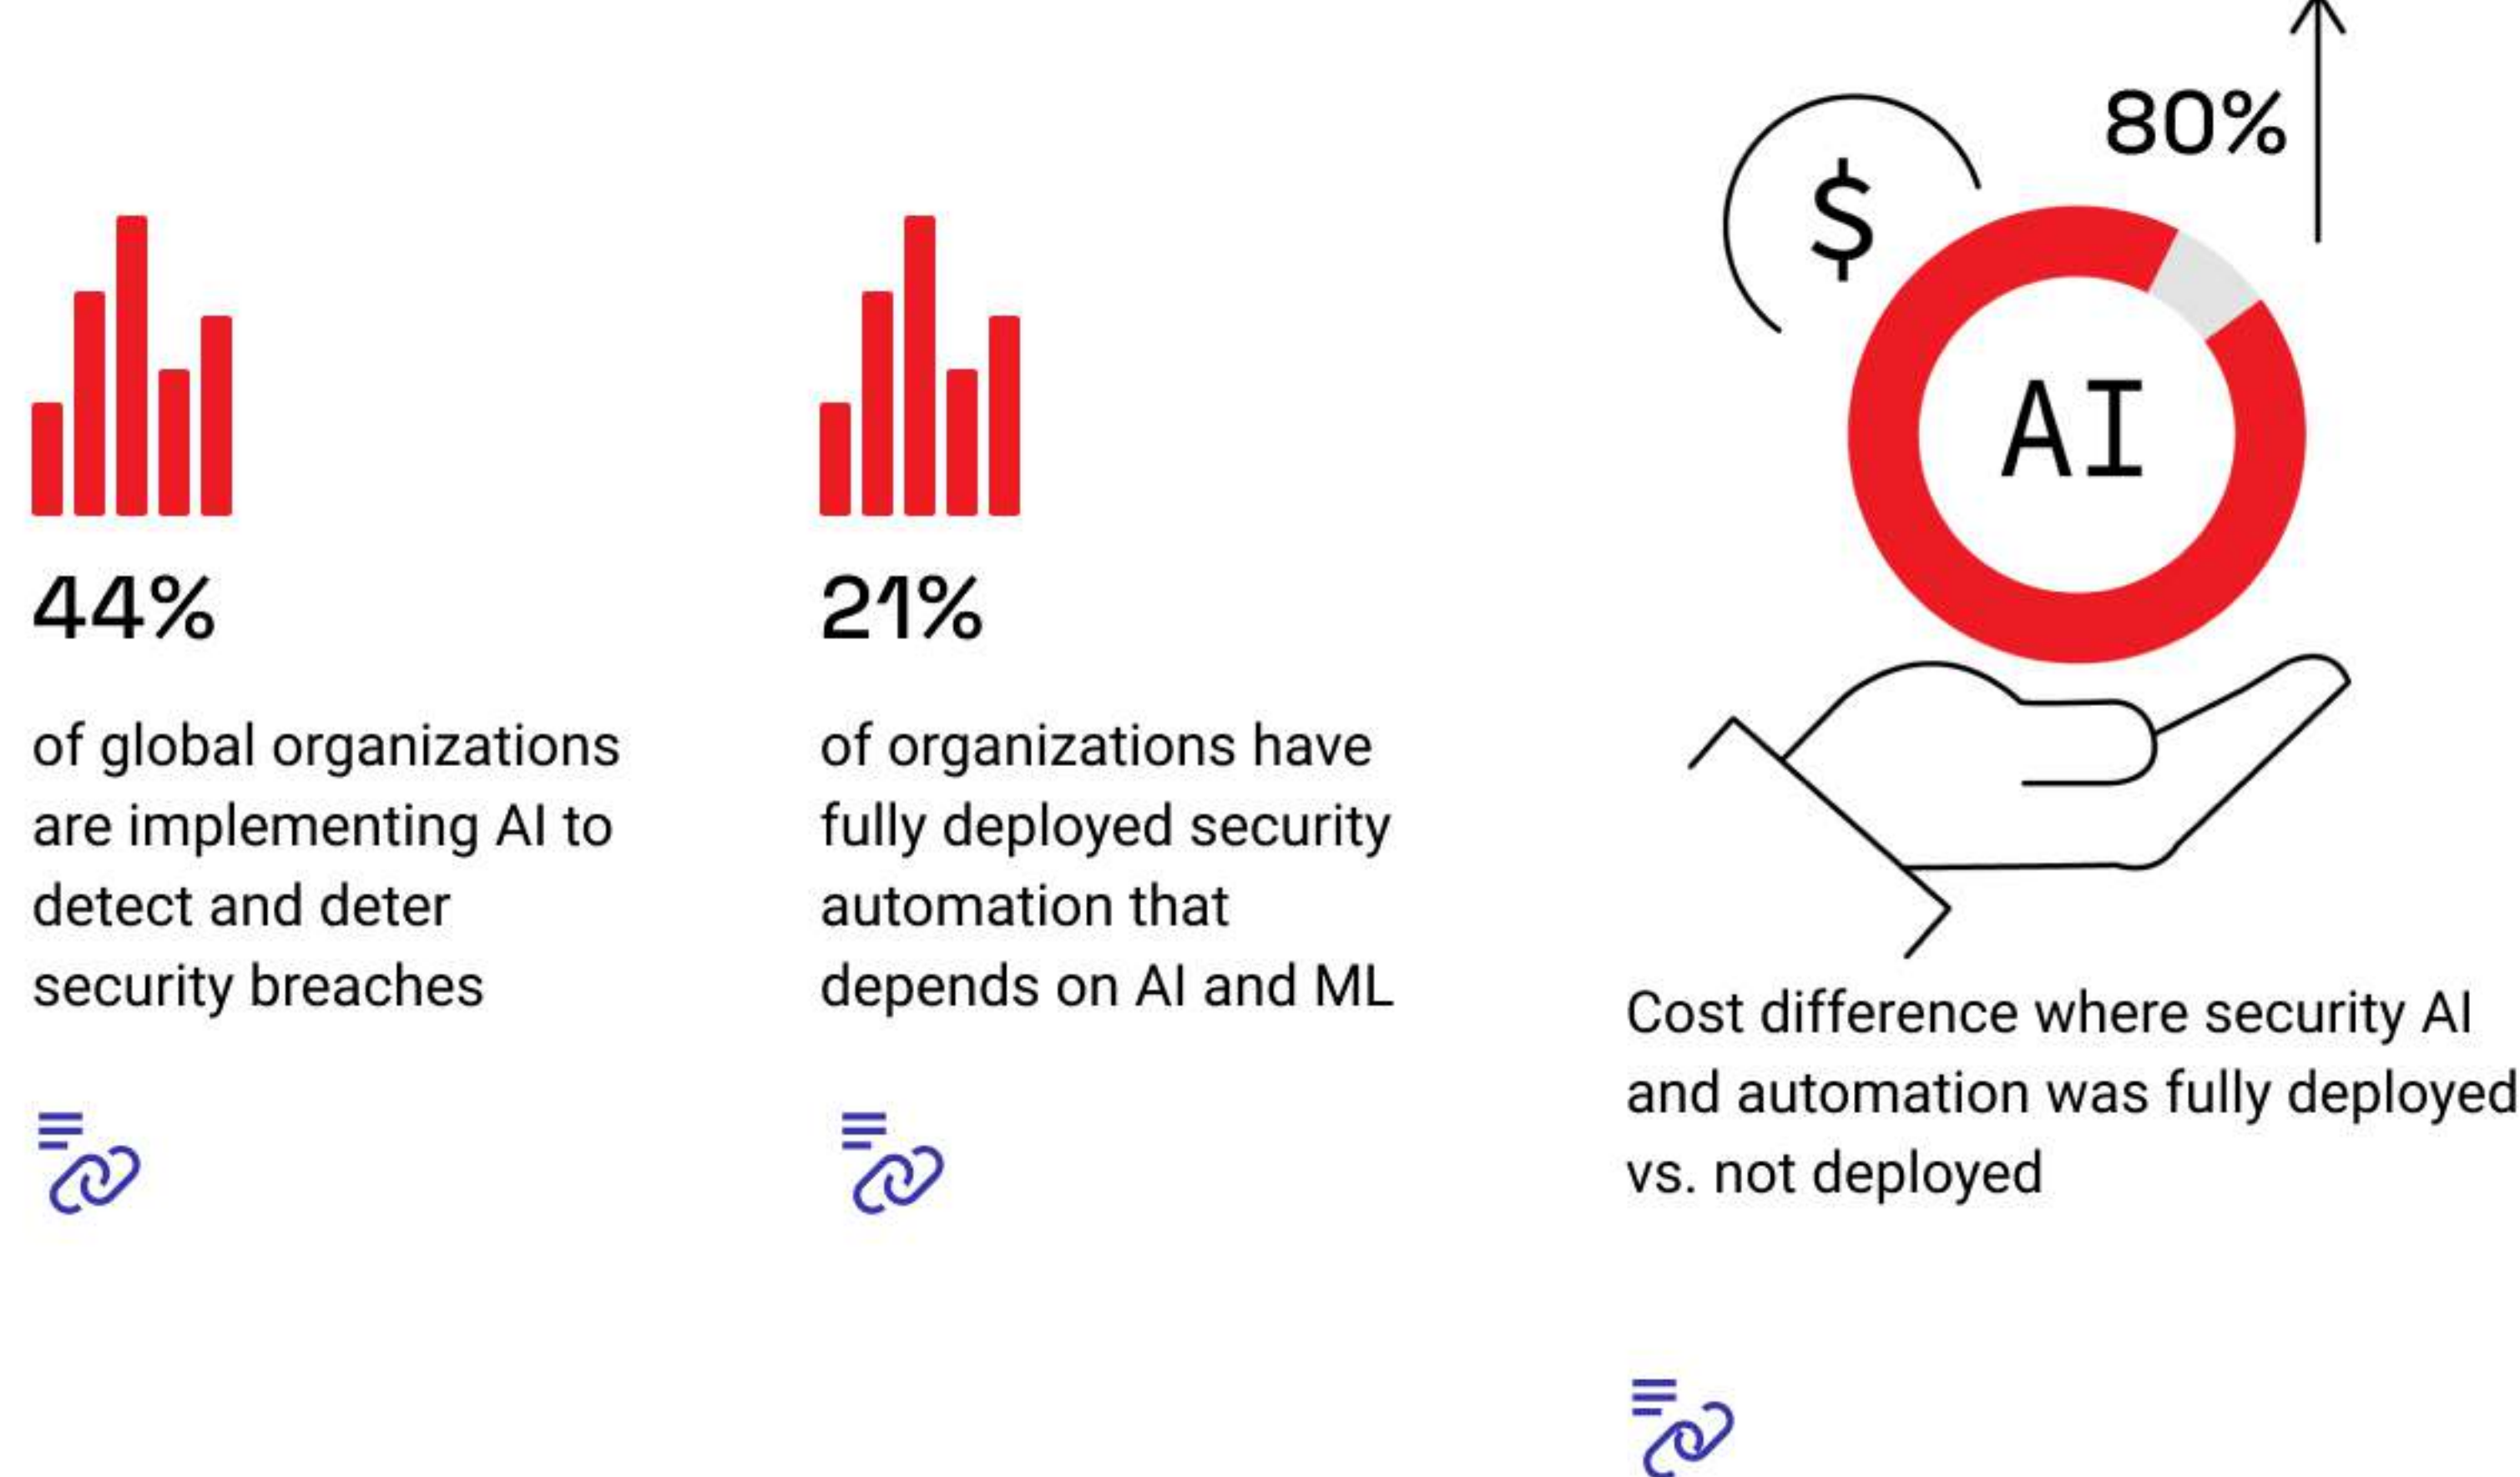

## How Has Ransomware Affected Business

## Top Attack Vectors

## Why AI Cybersecurity Matters

Edge Labs can provide the highest degree of security and visibility for network intrusion detection for healthcare and any other industry and automate remediation techniques for the attacks:

- Network flooding
- Scanning and ddos attacks can be quickly detected
- Reported to SOC team and remediated properly

**PROTECT YOUR EDGE  
& IOT ENVIRONMENT**
